Schutter Excellence B.V.B.A certifies that, enabling (the effective usage of) Situational Directed Examination® a 3 year mission, interrelated goals and examination plans have been agreed together with Bolidt.

All these will be reviewed bi-annually and tuned where needed.

The actual execution of Situational Directed Examination® has started by the 13-th of juni 2007 and succession has been anticipated to bi-annually, by means of periodical actual observations (supplemented with relevant “1 on 1” conversations where needed).

In following through on the above mentioned it has been and will be demonstrated that the usage Bolidt’s integral management system results in:

- **Achieving planned goals in a controlled manner**
- **Where needed relevant corrective actions are planned, guided and executed**
- **Specific goals are being established to continually meet the ISO 9001, ISO 14001 as well as the SCC standards**
- **It has not been demonstrated the system establishment shows essential deviations.**

Approved:
