

Bolidt demonstrates its financial health with Rating 1 certificate years

Bolidt Synthetic Products & Systems recently received the Rating 1 certificate from Dun & Bradstreet (D&B). For many years now, the D&B Rating has been synonymous with a dependable predictive indicator for assessing the failure risk and financial strength of a company. Companies are ranked on a scale from 1 to 4. A Rating 1 is the best possible score, which is achieved by only 18% of Dutch companies.

This independently received rating shows that Bolidt, even in the current economic downturn, has remained a reliable, financially strong and healthy company. The D&B Rating is an objective, universal evaluation method that enables international comparisons. For this purpose, public data are collected and entered into D&B's Databank every day. The system automatically updates the rating and therefore provides an up-to-date reflection of the current state of affairs.

Especially in this harsh economic climate, Dun & Bradstreet is happy to spread positive news by putting their customers and non-customers in the limelight with a rating 1 score.
